Product name: Purified Anti-Human CD83 Monoclonal Antibody

Catalog: DL20094F

Synonyms: BL11, CD83, HB15

Background: CD83 is a 43 kD single chain type I glycoprotein also known as HB15. A member of the immunoglobulin superfamily, CD83 is expressed on a subset of dendritic cells, Langerhans cells, and weakly on activated lymphocytes. Although CD83 is thought to play a role in antigen presentation and/or lymphocyte activation, the precise function of this protein is unknown. CD83 is considered to be a useful marker for mature dendritic cells.

Form: Liquid

Isotype: Mouse IgG1, κ

Size: 25 µg/100 µg

Host: Mouse

Reactivity: Human

Application: FCM,IHC

Concentration: 0.5 mg/mL

Conjugation: Unconjugated

SwissProt: Q01151

Buffer: PBS with 0.05% Proclin300

Recommended Use:

Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. For flow cytometric staining, the suggested use of this reagent is ≤ 0.5 g per 10^6 cells in 100 µL volume or 100 µL of whole blood. It is recommended that the reagent be titrated for optimal performance for each application.

Storage:

Keep as concentrated solution.

Store at 2~8°C. Do not freeze.

This product is guaranteed up to one year from purchase.
