Product name:	Anti-Human CD58 Monoclonal Antibody(AF647	
	Conjugated)	
Catalog:	DL20847F	
Synonyms:	Lymphocyte function-associated antigen	
	3,CD58,Ag3,Surface glycoprotein LFA-3,LFA3	
Background:	CD58, also known as lymphocyte	
	function-associated antigen 3 (LFA-3) is a 45-70 kD	
	cell surface protein that is a member of the	
	immunoglobulin superfamily. Alternative splicing of	
	CD58 gives rise to transmembrane and	
	glycosylphosphatidylinositol (GPI)-anchored forms	
	on cell surface. CD58 is expressed on both	
	hematopoietic and non-hematopoietic cells including	
	B cells, T cells, monocytes, erythrocytes, endothelial	
	cells, epithelial cells, and fibroblasts. High levels are	

observed on memory T cells and dendritic cells. CD58 expressed on antigen presenting cells and target cells enhances T cell recognition via the binding of it's cognate ligand, CD2, on the T cell surface.

Form: Liquid	Isotype: Mouse IgG1, κ
Size: 20 Tests/50 Tests/100	Host: Mouse
Tests/200 Tests	
Reactivity: Human	Application: FCM
Concentration:	Conjugation: AF647
SwissProt: P19256	

Recommended Use:

Buffer:

Each lot of this antibody is quality control tested by immunofluorescent staining with flow cytometric analysis. The amount of the reagent is suggested to be used 5 μ L of antibody per test (million cells in 100 μ l staining volume or per 100 μ l of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

PBS with 0.05% Proclin300, 1% BSA

DEVELOP

Storage:

Keep as concentrated solution.

Store at 2~8°C and protected from prolonged exposure to light. Do not freeze.

This product is guaranteed up to one year from purchase.
