Product name:	Anti-Human CD49d Monoclonal		
	Antibody(PE/Cyanine7 Conjugated)		
Catalog:	DL21763F		
Synonyms:	Integrin alpha-4,CD49 antigen-like family member		
	D,Integrin alpha-IV,VLA-4 subunit		
	alpha,CD49d,ITGA4		
Background:	CD49d is a 150 kD α integrin chain known as α4		
integrin or VLA-4 $\alpha$ chain. It forms a heterodimer			
	with either integrin $\beta 1$ ( $\alpha 4\beta 1$ , VLA-4) or $\beta 7$ ( $\alpha 4\beta 7$ ).		
	CD49d is expressed broadly on T lymphocytes, B		
	lymphocytes, monocytes, thymocytes, eosinophils,		
	basophils, mast cells, NK cells, dendritic cells, and		
	some non-hematopoietic cells, but not on normal red		
	blood cells, platelets or neutrophils. VLA-4 binds to		
	VCAM-1 (CD106) and fibronectin. $\alpha 4\beta 7$ is the		

receptor for VCAM-1 and MAdCAM-1. CD49d participates in mononuclear cell trafficking to endothelial sites of inflammation and has roles in cell-cell interactions and cell adhesion to extracellular matrices. CD49d is involved in lymphocyte migration, T cell activation, and hematopoietic stem cell differentiation. CD49d is a marker to isolate pure populations of Treg cells due to its absence on Foxp3+ cells.

Form: Liquid		<b>Isotype:</b> Mouse IgG1, κ
Size:		Host: Mouse
20Tests/100Tests/	100Tests×2	
Reactivity: Human		<b>Application:</b> FCM
Concentration: 5 µL		Conjugation: PE/Cyanine7
SwissProt:	P13612	
Buffer:	Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.	

## **Recommended Use:**

Each lot of this antibody is quality control tested by flow

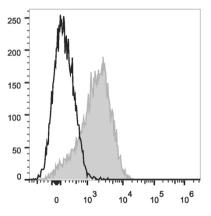

www.dldevelop.com

cytometric analysis. The amount of the reagent is suggested to be used 5  $\mu$ L of antibody per test (million cells in 100  $\mu$ L staining volume or per 100  $\mu$ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.

## Data:

Human peripheral blood lymphocytes are stained with Anti-Human CD49d Monoclonal Antibody(PE/Cyanine7 Conjugated)(filled gray histogram). Unstained lymphocytes (empty black histogram) are used as control.

## **Storage:**

Keep as concentrated solution.

Store at  $2\sim 8^{\circ}$ C and protected from prolonged exposure to light. Do not freeze.

This product is guaranteed up to one year from purchase.
